Other services: sports physicals/wellness visits

Friday, August 18th, 2017, 2pm-8pm

Consumer Board Member Special Recognition, 6pm

145 Palmetto Pointe Road

Marion, SC 29571

As a part of National Health Center Week, in conjunction with our official sponsor, Henry Schein and other key partners, Health Care Partners of South Carolina (HCPSC) is hosting an event dedicated to providing **free health screenings**, such as asthma screenings, blood pressure screenings, blood sugar screenings, BMI screenings, and oral health screenings. Other health services available include sports physicals/wellness visits. We also will have a series of health focused seminars focusing on Nutrition, Women's Health, and training for accessing test results & other patient information via the eHR's Patient Portal.

While the focal point of the event is to provide health services and education, there will also be fun for everyone at the event! Children will have the opportunity to get **free school supplies** and have fun with an inflatable obstacle course. Adults will have the opportunity to enter drawings for **giveaways**. There will be **free food, refreshments, and music** for everyone to enjoy. Lastly, we will host a Consumer Board Member Appreciation event to thank our Board Members for all their hard work and everything they do.
